

Blooms

A woman with dark hair pulled back, wearing a light pink long-sleeved top, is holding a large, lush bouquet of flowers and greenery. The bouquet includes purple hydrangeas, green grape clusters, and various green leaves and ferns. She is sitting on a dark grey sofa against a dark green background.

Ondernemersgala
Den Haag

Why we work with artificial florals.

Not as a substitute for live greenery, but as a deliberate choice. Visually near indistinguishable, presentable for years, whatever the light or the use. To us it is no compromise, but a premium category in its own right.

WHAT THAT DELIVERS	
	No maintenance
	Always presentable
	A lasting investment
	Complete design freedom
	Hygienic and practical

Calm, class and consistency

Not temporary decoration, but a lasting visual standard.

About us

Blooms is a floral & green design studio based in Rijswijk, the Netherlands. We create silk flower arrangements and interior greenery for hotels, offices and event venues, with the same care and detail as fresh flowers, but without the maintenance.

Every concept starts with the space: light, materials, colour and atmosphere. Our stylists tailor the design, we install it and swap it each season. Everything is reused or restored. Nothing is thrown away.

Alongside bespoke work for businesses we offer bouquet subscriptions and rent out arrangements for events. Our webshop blooms.nl is there for anyone who wants to order directly.

Blooms is based in Rijswijk and works throughout the Netherlands.
