Support for projects based on fundamental research, industrial research, experimental development and demonstrations (or combinations thereof)

In 2020 approximately € 130 million subsidy available for innovations in the field:

- Sustainable energy production
- Energy saving
- Flexibility of the electricity system
- CO2 reduction in industry
- Circular economy
- Natural gas-free houses, neighborhoods and buildings

	TSE arrangements	Subsidie- plafond 2020 (M€)
DEI+	Demonstratie Energie- en Klimaatinnovatie (9 Themes) (demonstration energy and climate innovation)	86,1
	<ul style="list-style-type: none"> • CC(U)S (Carbon Capture, Utilisation and Storage) • Energy efficiency • Renewable Energy • Flexibility of energy systems (e.g. hydrogen) • Spatial planning • Local infrastructure • Other carbon reducing measures in the industry or electricity sectors 	
	<ul style="list-style-type: none"> • Gas free homes, quarters and buildings • Circular economy 	<p style="text-align: right;">9</p> <p style="text-align: right;">44</p>
HE	Hernieuwbare Energie (renewable energy)	20
HE+	Hernieuwbare Energie (renewable energy)	30
Studies	TSE energiestudies Industrie (energy studies industry)	6
MOOI	Missiegedreven Onderzoek, Ontwikkeling en Innovatie (Mission driven research, development and innovation)	10,1
	• Offshore wind	10,9
	• Onshore renewables	27
	• Urban environment	17
• Industry		
VEKI	Versnelde klimaatinvesteringen in de industrie (open:Sempt.1th) (Accelerated climate investments in the industry)	28
Ind	TSE Industrie (industry)	2,8
GO	TSE Gebouwde omgeving (urban environment)	2,8

Demonstration Energy & Climate Innovation

2 types of projects

- Pilot project
 - in which innovative CO2-reducing measures are tested in environments that are representative of functioning under real conditions
- Demonstration project
 - concerns investment aid for practical applications by an end user / operator

9 themes (and several sub-themes)

>>Popular, theme Circular Economy

- Recycling,
- Reuse of waste / repair
- Use of biobased raw materials
