HOW DOES THE HAGUE SUPPORT CYBERSECURITY?

The Hague is renowned as the International City of Peace and Justice and has also built up a strong reputation in cybersecurity. After all, peace, justice, and security go hand in hand.

For over a decade, The Hague has been committed to combating the cyber threats of today and tomorrow by focusing on knowledge sharing, innovation and cooperation. The city has built a unique network that brings together knowledge and innovation in the field of cybersecurity. Private, public and knowledge organisations work daily to protect.

ABOUT THE HAGUE & PARTNERS

We are a non-profit publicly funded organisation, helping innovating business pioneers to strategically expand their business operations to Europe. We support international companies by offering tailor-made programs and solutions allowing them to access

local capital and talent pools. Furthermore, we help event professionals, meeting organisers and incentive planners access The Hague's knowledge and event infrastructure and create events to remember.

"In a world where cyber threats are as real as physical ones, it is our collective responsibility to ensure that the pillars of peace and justice are fortified against digital attacks."

The Beyond 125 conference symbolises our commitment to securing a peaceful digital future for all. The Hague, a center of expertise in everything related to the cyber world, is happy to contribute to this."

Jan van Zanen, Mayor of The Hague

FACTS & FIGURES

The Hague is a major and rapidly expanding cybersecurity and tech hub in Europe:

- hosting prominent institutions such as Europol's European Cybercrime Centre (EC3), the National Cyber Security Centre (NCSC), the NATO Communications and Information Agency (NCIA), as well as numerous innovative technology companies;
- The Hague Security Delta (HSD) is Europe's leading cybersecurity cluster. Its vision is a more secure world, and it comprises over 300 public and private partners and knowledge institutions that collaborate on innovative security solutions and knowledge development;
- Major international advancements and breakthroughs in the fields of cyber security, forensics, AI, security and critical infrastructure are developed in The Hague area, forming an unparalleled ecosystem of technology companies.

ONE Conference:

Europe's premier cybersecurity conference promotes cross-border cooperation between cybersecurity professionals in business, science, and government, fostering innovation and collaboration. Yearly, this exclusive two-day event attracts 2,000 international visitors a day to the city working in the technical or non-technical cybersecurity field.
