### COVID-19 Venue Information

The Hague is open to welcome you and your delegates to our city, both live in one of our venues or online via various hybrid possibilities. To ensure your safety and that of your delegates, all hotels and venues located in The Hague, follow strict guidelines and measures issued by The Netherlands Board of Tourism & Conventions (NBTC). The Covid-19 Reopening Protocol is created for Business Events in The Netherlands. It contains guidelines for meeting and convention organizers, suppliers, and delegates of meetings, conventions and events taking place in the Netherlands. Business events include trade shows and corporate events.

Some of the key points of the Reopening Protocol include:

- Every location has a designated COVID-19 officer on site, who is responsible for the implementation, coordination and supervision of the Protocol for Business Events and accompanying guidelines.
- Every location has recalculated its attendance capacity per event to ensure 1.5 meter distance is available per attendee at all times.
- Signage is in place at every location for correct routing and awareness of keeping 1.5 meter distance.

For further information, please visit [Protocol for Business Events & Covid-19 Reopening Protocol for Business Events in the Netherlands](#).

online meeting. And from an interactive tour to an online lecture or a webinar. They have experience with various formats but are also happy to think along about an online or hybrid event that is completely tailored to your wishes.

**COVID-19 measures**

You must keep 1.5 meters away from anywhere in the museum and they have taken the necessary measures within the building and facilities to allow for this. Good hygiene and quick cleaning are essential so they ensure that the building is cleaned intensively. In addition to the regular cleaning, they provide hourly cleaning of various contact points in the museum, such as door knobs, door handles, lift buttons and bannisters. The toilets are accessible and cleaned every hour, with cleaning staff continuously present in these and other designated parts of the building. Employees always keep a distance of 1.5 meters from each other and from the visitor. Staff in all areas such as the checkout, cloakroom, information, museum shop and catering, work with gloves on. Employees and visitors are protected by a glass or plexiglass shield or splash screen and "disinfection points" are offered in various places where you will find disinfectant hand gel.
